

## **FAMILY BATHING**

With the main splash pool ideal for swimming and play plus an attached shallow toddlers' area ranging in temperature from 35-38°C, Waikite Valley Thermal Pools is the perfect spot for a family outing. Two outdoor tubs (at a higher temperature) overlook the family pool making it easy for parents to keep on eye on older children without being in the midst of the action. Picnics tables, sunshades, covered seating, heated changing rooms, showers, toilets, a casual café and a short eco-trail walk add to the fun of a visit to the thermal pools, a 30-minute drive south of Rotorua.
